The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. Continuation of 3. NOTE: The newly added limitation (item c) in claim 1 raises a new issue and requires further consideration.

Continuation of 13. Other: With respect to the information disclosure statement (IDS) received on November 12, 2009, the submission which is filed after the final rejection is not in compliance with the provisions of 37 CFR 1.97 since it lacks of a statement as specified in 37 CFR 1.97(e) that must state either

- (1) that each item of information contained in the information disclosure statement was first cited in any communication from a foreign patent office in a counterpart foreign application not more than three months prior to the filing of the statement or
- (2) that no item of information contained in the information disclosure statement was cited in a communication from a foreign patent office in a counterpart foreign application, and to the knowledge of the person signing the statement after making reasonable inquiry, no item of information contained in the information disclosure statement was known to any individual designated in 37 CFR 1.56(c) more than three months prior to the filing of the statement.

In summary, the IDS filed by Applicant on November 12, 2009 fails to include a statement that incorporates one of the two criteria listed above. Accordingly, the IDS has not been considered by the examiner.
